**STATE GOVERNMENT**

**OTHER STATE GOVERNMENT**

Currently, with certain exceptions, DOA may sell or lease state-owned real property if DOA determines that the sale is in the best interest of the state and the Building Commission approves the sale. Any sale may be either on the basis of public bids, with DOA reserving the right to reject any bid in the interest of the state, or negotiated prices and need not reflect fair market value. Also currently, various state agencies have authority to sell real property under their jurisdiction subject to various conditions and limitations. The proceeds of any sales are deposited, credited, or used in various ways as provided by law. DOA's authority generally does not apply to property that another agency has authority to sell. Also, DOA's authority does not operate to permit the closure or sale of any facility or institution the operation of which is required by law. DOA's authority also does not extend to property under the jurisdiction of the Board of Regents of the University of Wisconsin System and certain property under the jurisdiction of DHS at the Northern Center for the Developmentally Disabled. Except as otherwise provided by law, any sale by DOA

may be with or without the approval of the state agency that has jurisdiction over the property. The net proceeds of any sale by DOA are used to retire any outstanding public debt that was incurred to acquire, construct, or improve the property and if the property was acquired, constructed, or improved with federal financial assistance, the proceeds must be used to repay the federal government to the extent required by federal law. If the property was acquired by gift or grant or with gift or grant funds, DOA must adhere to any restriction governing use of the proceeds. DOA must use any remaining net proceeds to retire other outstanding public debt.

Currently, with certain exceptions, the Building Commission may also sell state-owned real property where this authority is not given to another state agency by law, and may transfer land under its jurisdiction among agencies. Sales may be accomplished in a manner similar to the manner that sales are conducted by DOA, except that sales of surplus land having a value of at least \$20,000 are subject to the approval of JCF. However, the Building Commission does not have the authority to sell a parcel of state-owned real property once DOA notifies the commission that an offer of sale or sale with respect to the parcel is pending. If a sale is not completed and no further action is pending with respect to a parcel of property, the authority of the Building Commission to sell the property is restored. The net proceeds of any sales by the Building Commission must be used to retire any public debt that was used to acquire or construct improvements on the property being sold. The remaining net proceeds must be deposited in the budget stabilization fund. Current law also directs the Building Commission to compile biennially and transmit to JCF an inventory of state-owned surplus land.

This bill permits DOA or the Building Commission to sell or lease any state-owned real property unless prohibited by the state or federal constitution or federal law, subject to the approval of the Building Commission. Under the bill, any sale may be either on the basis of public bids, with DOA or the commission reserving the right to reject any bid in the best interest of the state, or on the basis of negotiated prices as determined through a competitive or transparent process. The bill does not apply to sales conducted to enforce an obligation to this state. The bill retains most of the existing exemptions from DOA's sales authority but eliminates the current exemption of the Board of Regents of the University of Wisconsin System and DHS (with respect to the Northern Center) to sell or lease state-owned real property independently of DOA. Under the bill, if DOA or the Building Commission notifies the Board of Regents or DHS that an offer of sale, sale, or lease is pending with the respect to a parcel of property, the Board of Regents or DHS does not have authority to sell or lease that property. The bill eliminates the current exception that exempts sales that would necessitate the closure of a facility or institution which is provided for by law. However, the bill does not repeal any statutes that require the operation of any facilities or institutions. Under the bill, if DOA or the Building Commission sells all the real property that is currently used to operate a facility or institution, the facility or institution would need to continue in operation. Under the bill, except with respect to exempt property, if any agency has authority to sell or lease real property under any other law, the authority of that agency does not apply after DOA or the Building Commission notifies the agency in writing that an offer of sale or sale,

or a lease agreement, is pending with respect to the property. If the sale or lease is not completed and no further action is pending with respect to the property, the authority of the agency to sell or lease the property is restored. Under the bill, DOA and the Building Commission must first use the net proceeds of any sale or lease to retire any public debt that was used to finance the acquisition, construction, or improvement of the property that is sold. Thereafter, DOA and the Building Commission must use the net proceeds of any sale or lease to pay the costs of federal tax law compliance applicable to the debt. The bill directs DOA and the Building Commission to use the remaining net proceeds of any sale or lease, subject to current requirements, to retire any revenue obligation debt in the fund that was used to acquire, construct, or improve property that was sold and thereafter to retire other similar revenue obligations. If other outstanding public debt is redeemed, the bill specifies factors to consider in deciding which debt to redeem. The bill provides that if any property that is proposed to be sold by DOA or the Building Commission is co-owned by a nonstate entity, DOA or the commission must afford to the co-owner the right of first refusal to purchase the share of the property owned by the state on reasonable financial terms established by DOA or the commission.

The bill also provides that if DOA sells or leases a state-owned heating, cooling, or power plant, DOA may contract for the operation of any function that is performed by the state on the property. Currently, DOA or any state agency to which DOA delegates authority may enter into a contractual services agreement if the services can be performed more economically or efficiently by contract than by the state directly. The bill provides that this requirement does not apply to contracts with purchasers or lessees entered into by DOA under the bill. The bill provides that if DOA or the Building Commission sells or leases any real property, or if DOA contracts with a purchaser or lessee for the operation of any real property, that was under the jurisdiction of another state agency prior to the sale, lease, or contract, the agency must convey all systems, fixtures, or additional property interests specified by DOA or the Building Commission to the purchaser or lessee of the property on the terms specified by DOA or the Building Commission. The bill also provides that if DOA or the Building Commission sells or leases, or if DOA contracts with a purchaser or lessee, for the operation of a state-owned heating, cooling, or power plant that is under the jurisdiction of a state agency, the agency must convey all real and personal property associated with the plant to the purchaser or lessee on terms specified by the Building Commission or DOA. In addition, the bill provides that if DOA sells, leases, or contracts with a purchaser or lessee for the operation of any facility that is operated by a state agency before the effective date of the sale, lease, or contract, DOA may decrease the authorized full-time equivalent positions for the agency and may lapse or transfer appropriated moneys from any appropriation made to the agency, other than a sum sufficient appropriation, an appropriation of program revenues to the Board of Regents of the University of Wisconsin System, or an appropriation of segregated or federal revenues, to account for discontinuance of the operation of the facility by the agency.

Finally, the bill modifies the authority of the Building Commission to sell or lease state-owned buildings, structures, and land to parallel the authority of DOA

Thereafter, DOA and the Building Commission are directed to use any net proceeds to retire other outstanding public debt.

pay the costs of federal tax law compliance applicable to the debt, and thereafter

under the bill so that the authority includes property under the jurisdiction of the Board of Regents of the University of Wisconsin System and is not generally limited by sales authority given to state agencies, and so that distribution of sales proceeds is accomplished in the same manner as proceeds of DOA's sales are distributed. The bill deletes the current limitation that certain sales of surplus land are subject to approval of JCF. The bill directs each state agency, no later than January 1, 2014, and biennially thereafter, to submit to DOA an inventory of all real property under its jurisdiction together with the estimated fair market value of each property. Each agency must specifically identify any underutilized assets in the inventory. Under the bill, no later than July 1 following receipt of the inventories, DOA must obtain appraisals of all properties in the inventory that are identified by DOA for potential sale and submit to the Building Commission an inventory containing a location, description, and fair market value of each property identified for potential sale.

Currently, DOA has charge of, operates, and maintains the state capitol power plant and any power plants serving the state office buildings. Under the bill, DOA has charge of, operates, and maintains any heating, cooling, and power plants not operated by another agency or by a purchaser, lessee, or contractor.

23 the building commission need not operate such project in a manner to provide

4     interests.

5           **SECTION 62.** 84.09 (1) of the statutes is amended to read:

6           84.09 (1) The department may acquire by gift, devise, purchase or  
7     condemnation any lands for establishing, laying out, widening, enlarging,  
8     extending, constructing, reconstructing, improving and maintaining highways and  
9     other transportation related facilities, or interests in lands in and about and along  
10    and leading to any or all of the same; and after establishment, layout and completion  
11    of such improvements, the department may, subject to any prior action under s. 13.48  
12    (14) (am) or 16.848 (1), convey such lands thus acquired and not necessary for such  
13    improvements, with reservations concerning the future use and occupation of such  
14    lands so as to protect such public works and improvements and their environs and  
15    to preserve the view, appearance, light, air and usefulness of such public works.  
16    Whenever the department deems it necessary to acquire any such lands or interests  
17    therein for any transportation related purpose, it shall so order and in such order or  
18    on a map or plat show the old and new locations and the lands and interests required,  
19    and shall file a copy of the order and map with the county clerk and county highway

25    department shall endeavor to obtain easements or title in fee simple by conveyance

1 of the lands or interests required at a price, including any damages, deemed  
2 reasonable by the department. The instrument of conveyance shall name the state  
3 as grantee and shall be recorded in the office of the register of deeds. The purchase  
4 or acquisition of lands or interests therein under this section is excepted and exempt  
5 from s. 20.914 (1). The department may purchase or accept donations of remnants  
6 of tracts or parcels of land existing at the time or after it has acquired portions of such  
7 tracts or parcels by purchase or condemnation for transportation purposes where in  
8 the judgment of the department such action would assist in making whole the  
9 landowner, a part of whose lands have been taken for transportation purposes and  
10 would serve to minimize the overall costs of such taking by the public. This  
11 subsection does not apply to lands that are sold under s. 16.848.

12 **SECTION 63.** 84.09 (5) (a) of the statutes is amended to read:

15 sell at public or private sale property of whatever nature owned by the state and  
16 under the jurisdiction of the department when the department determines that the  
17 property is no longer necessary for the state's use for transportation purposes and,  
18 if real property, the real property is not the subject of a petition under s. 16.310 (2).  
19 The department shall present to the governor a full and complete report of the  
20 property to be sold, the reason for the sale, and the minimum price for which the same  
21 should be sold, together with an application for the governor's approval of the sale.  
22 The governor shall thereupon make such investigation as he or she may deem  
23 necessary and approve or disapprove the application. Upon such approval and  
24 receipt of the full purchase price, the department shall by appropriate deed or other  
25 instrument transfer the property to the purchaser. The approval of the governor is

1 not required for public or private sale of property having an appraised value at the  
2 time of sale of not more than \$15,000, for the transfer of surplus state real property  
3 to the department of administration under s. 16.310, or for the transfer of surplus  
4 state personal property to the department of tourism under sub. (5s). The funds  
5 derived from sales under this subsection shall be deposited in the transportation  
6 fund, and the expense incurred by the department in connection with the sale shall  
7 be paid from such fund.

13 resources to solicit interest in acquiring the parcel for public use. Upon notification  
14 from the department, the county, municipality, local school district, and department  
15 of natural resources must respond to the department, stating their interest in the  
16 land for public use, within 60 days. Failure to respond within 60 days constitutes  
17 noninterest in the land parcel.

18 **SECTION 65.** 84.09 (5) (c) 2. (intro.) of the statutes is amended to read:

19 84.09 (5) (c) 2. (intro.) Except as provided in subd. 2m. and subject to any prior  
20 action under s. 13.48 (14) (am) or 16.848 (1), if a county, a municipality, a local school  
21 district, or the department of natural resources expresses interest in acquiring the

11          pursuant to this section and improvements installed thereon to municipalities  
12          within whose limits such lands or interests therein are located. The conveyance of  
13          said lands or interests therein and improvements shall restrict the use of the  
14          premises by the municipality to the uses for which they were acquired, except that  
15          said lands or interests therein declared by the department to be excess may be so  
16          conveyed without restrictions as to use. This subsection shall apply only to the sale  
17          of property acquired by the department for a project that is completed before May 25,

10 public interest.

11 **SECTION 71.** 85.09 (2) (a) of the statutes is amended to read:

12 85.09 (2) (a) The department of transportation shall have the first right to  
13 acquire, for present or future transportation or recreational purposes, any  
14 property used in operating a railroad or railway, including land and rails, ties,  
15 switches, trestles, bridges, and the like located on that property, that has been  
16 abandoned. The department of transportation may, in connection with abandoned  
17 rail property, assign this right to a state agency, the board of regents of the University  
18 of Wisconsin System, any county or municipality, or any transit commission.  
19 Acquisition by the department of transportation may be by gift, purchase, or  
20 condemnation in accordance with the procedure under s. 32.05. In addition to its  
21 property management authority under s. 85.15, the department of transportation  
22 may, subject to any prior action under s. 13.48 (14) (am) or 16.848 (1), lease and collect  
23 rents and fees for any use of rail property pending discharge of the department's duty  
24 to convey property that is not necessary for a public purpose. No person owning  
25 abandoned rail property, including any person to whom ownership reverts upon

1     abandonment, may convey or dispose of any abandoned rail property without first  
2     obtaining a written release from the department of transportation indicating that  
3     the first right of acquisition under this subsection will not be exercised or assigned.  
4     No railroad or railway may convey any rail property prior to abandonment if the rail  
5     property is part of a rail line shown on the railroad's system map as in the process  
6     of abandonment, expected to be abandoned, or under study for possible  
7     abandonment unless the conveyance or disposal is for the purpose of providing  
8     continued rail service under another company or agency. Any conveyance made  
9     without obtaining such release is void. The first right of acquisition of the  
10    department of transportation under this subsection does not apply to any rail  
11    property declared by the department to be abandoned before January 1, 1977. The  
12    department of transportation may acquire any abandoned rail property under this  
13    section regardless of the date of its abandonment.

14       **SECTION 72.** 85.09 (4) of the statutes is amended to read:

15       **85.09 (4) ACQUISITION AND CONVEYANCE.** Upon its own initiative, the department  
16    may determine at any time whether the rail property is abandoned, and whether it  
17    is in the best interest of the state to acquire the rail property. Within 90 days after  
18    being requested by any state agency, any railroad or any county or municipality in  
19    which the rail property is located, the department shall, subject to sub. (5) (b), make  
20    a determination of the abandonment status and, if found to be abandoned, shall  
21    determine whether it is in the best interest of the public to acquire the rail property.  
22    If it is determined to acquire the rail property or any part or interest therein, the  
23    department shall, within 180 days of the determination of its abandoned status, or  
24    the interstate commerce commission's final order permitting the abandonment, or  
25    the termination of any efforts to negotiate an agreement for continual operation of

1 rail service on the line, whichever occurs last, determine the fair market value of the  
2 rail property and acquire the rail property at a price deemed reasonable by the  
3 department or make a relocation order under s. 32.05. In making its determination,  
4 the department shall consider long-range potential for use of the rail property for  
5 restoration of railroad service and for other transportation related purposes. The  
6 department shall solicit the opinions of appropriate state agencies, affected counties  
7 and municipalities and other interested persons. The department shall give due  
8 consideration to an expressed desire by a state agency or an affected county or  
9 municipality to acquire, in whole or in part, the rail property under consideration.  
10 Subject to any prior action under s. 13.48 (14) (am) or 16.848 (1) and subject to sub.  
11 (6), all or part of any interest in abandoned rail property acquired by the department  
12 under this section or under s. 66.941 (7), 1975 stats., may be subsequently conveyed  
13 to another state agency or a county or municipality for transportation purposes,  
14 recreational purposes, scenic purposes or for the purpose of constructing a  
15 correctional institution, or to a railroad for continued railroad transportation  
16 operations when the railroad has operated on the rail property for 5 years and the  
17 department may make such conveyances for such purposes. Any determination of  
18 the department under this section that rail property is not abandoned shall not  
19 preclude the undertaking of a subsequent investigation and determination  
20 concerning the same rail property or any portion thereof. If at any time subsequent  
21 to the acquisition of rail property under this section the department determines that  
22 the rail property is not suitable for transportation purposes, recreational purposes,  
23 scenic purposes or for the purpose of constructing a correctional institution, or that  
24 the rail property or any interest therein may be conveyed to any other person on  
25 terms which are not inconsistent with the potential use of the rail property for

1     transportational purposes, recreational purposes, scenic purposes or for the purpose  
2     of constructing a correctional institution or which yield a benefit, including financial  
3     benefits, to the state which outweighs the benefit derived from the rail property if  
4     used for transportational purposes, recreational purposes, scenic purposes or for the  
5     purpose of constructing a correctional institution, the department may convey the  
6     rail property or such interest therein, subject to any prior action under s. 13.48 (14)  
7     (am) or 16.848 (1) and subject to sub. (6). The department shall give notice of its  
8     intention to make the conveyance, and state and local units of government shall have  
9     the first 6 months in which to exercise their opportunity to acquire the rail property  
10    or interest therein. The railroad from which the rail property was acquired shall  
11    have the next 6 months in which to exercise its opportunity to reacquire the rail  
12    property or interest therein.

13           **SECTION 73.** 85.09 (4i) of the statutes is amended to read:

14           85.09 (4i) DISPOSAL OF RAIL PROPERTY. The department, subject to any prior  
15   action under s. 13.48 (14) (am) or 16.848 (1), shall sell at public or private sale rail  
16   property acquired under sub. (4) when the department determines that the rail  
17   property is not necessary for a public purpose and, if real property, the real property  
18   is not the subject of a petition under s. 16.310 (2). Upon receipt of the full purchase  
19   price, the department shall, by appropriate deed ~~or other~~ instrument, transfer the  
20   rail property to the purchaser. The funds derived from sales under this subsection  
21   shall be deposited in the transportation fund, and the expense incurred by the  
22   department in connection with the sale shall be paid from the appropriation under  
23   s. 20.395 (2) (bq). ~~This subsection does not apply to real property that is sold under~~

10   proceeds of such sale (or the value of such land when transferred) shall be credited
